PROJECTS

SQL Analysis Project – “Monday Coffee”

- Analyzed coffee sales data using PostgreSQL to find top-selling products and best-performing cities.
- Used SQL queries (JOINS, CTEs, aggregates) to discover trends and business insights.
- Helped estimate market size, track sales growth, and compare revenue across locations.

Loan Eligibility Prediction

- Developed a machine learning model in Python to predict loan approvals based on applicant data.
- Implemented data preprocessing, feature engineering, and model evaluation for accurate decision-making.

Saree Sales Management Website

- Developed a full-stack web application using React.js, Node.js, Express.js, and MongoDB with role-based login for admins and customers.
- Implemented product and order management features with real-time updates and PDF export for reports.
- Designed a responsive, brand-themed UI using Tailwind CSS for a seamless experience across devices.
